

# ARM<sup>®</sup> Server T5100

## Especificaciones Técnicas

Procesador	> Intel® Xeon® Processor E
Mother	> Intel® S1200SPL
Memoria	> 128GB Max Memory Size (dependent on memory type)
Network Controller	> Two integrated Intel® PRO/1000 Network Connections
Storage Controller	> 6 SATA ports at 3.0Gbps with embedded RAID 0, 1, and 10 by means of LSI RAID controller compatible with MS Windows® Server 2003/2008 and Linux Red Hat ES 3/4/5 and Suse Linux ES 9.0 and 10 OR embedded RAID 0, 1, 10 and 5 by means of Intel Matrix Storage controller compatible ONLY with MS Windows® Server 2003/2008.
Almacenamiento	> Hasta 6 Discos fijos / Hot-Swap SATA/SAS
Expansion Slots	> PCI Express Revision 3.0   1 x PCIe x4 Gen 3   2 x PCIe x8 Gen 3   1 x Connector for Intel® I/O Expansion Module x8 Gen 3 1 x Connector for Intel® Integrated RAID Module
Sistema Operativo	> Intel® Deployment Assistant
Management hardware	> iKVM optional
Opticos	> Grabadora de DVD SATA   DAT INTERNO 36/72GB SATA INTERNO
Chassis	> Gab. Tower Server
Fuente	> Simple/Redundante
